## PROFESSIONAL SUMMARY

Versatile Education Technology leader with proven success scaling educational initiatives and driving organizational growth, demonstrated by expanding a K-12 school from 175 to 600 students while managing 75 staff members. Combines deep educational leadership experience with technical expertise in database development and data-driven decision making to optimize educational outcomes and drive product strategy. Leverages cross-functional collaboration skills and stakeholder management expertise to implement comprehensive solutions across educational institutions, while applying strategic marketing and design capabilities to boost enrollment and engagement. Seeking to transition core competencies in educational leadership, technical implementation, and strategic growth management into an EdTech Product Manager role.
